SUMMARY Software developer at Visma specialising in front end with React and Next.js, and comfortable across the stack with .NET, AWS, Docker and CI/CD. Currently leading the cloud migration of a payroll-critical application. I started in infrastructure and operations, which shapes how I build, ship and run software. AWS Certified Developer.

EXPERIENCE

Visma · Sibiu 2022 – Present

Software Developer 2024 – Present

- Lead the migration of a payroll-critical application from one cloud provider to another.
- Specialise in front end, building user-facing features with **React** and **Next.js**.
- Also work with **AWS**, **Docker**, **CI/CD** pipelines and **.NET 10**.

System Engineer 2023 – 2024

- Oversaw and resolved issues in critical business applications across on-premise and cloud environments, including AWS and Azure.
- Built a status page web application that streamlines how the company’s incident managers create incidents.
- Wrote **Python** scripts that automate repetitive tasks, saving about two hours of manual work every week.

Technical Trainee 2022 – 2023

- Worked in operations, handling highly critical business applications.
- Monitored applications and systems, including night shifts.

Technical Trainer · Swiss Webacademy 2024 – Present

- Teach a Full Stack Development course (Vue.js, Node.js) to a small group, made up of several modules and hands-on projects.
- Give instruction and feedback, and support students throughout.

Front-end Developer · Graffino 2022

- Built Weather App (see Projects), a responsive web app built to industry best practices, so it works well across devices and screen sizes.

SKILLS

Front end	React, Next.js, TypeScript, JavaScript (ES6), HTML, CSS, Vue
Back end	.NET 10, C#, Node.js, Express, REST APIs, MVC, Python, PowerShell
Cloud & DevOps	AWS, Docker, CI/CD, Azure, Linux
Strengths	Communication, problem solving, troubleshooting, security awareness

CERTIFICATIONS **AWS Certified Developer – Associate**

EDUCATION

Multimedia System Engineering · Lucian Blaga University of Sibiu 2020 – 2024
Bachelor’s degree in Computer Science. Top of my class, final exam score 9.70.

Computer Programming and Mathematics · National College “Onisifor Ghibu” 2016 – 2020

PROJECTS

Hangout [Front end](#) · [Back end](#) · [Demo](#)

Chat app with direct messages, chat rooms and group video calls over a peer-to-peer WebRTC mesh.

Vue · TypeScript · Express · WebRTC · Socket.IO · Prisma · AWS (S3, Cognito, Amplify) · Docker

Chrono Switch [Play](#) · [GitHub](#)

2024

2D pixel art platformer where the player controls time to reveal hidden paths. Award winner at GameDev.js Jam 2024, featured in the Phaser newsletter.

JavaScript · Phaser

Prmpting Concept Art [GitHub](#) · [Demo](#)

Generates concept art from a prompt and lets you refine parts of the image with new prompts, using an in-browser canvas mask editor.

Vue 3 · AWS · OpenAI API

Game Shelf [Live](#) · [GitHub](#)

Search for video games and browse their details using the RAWG API.

Vue · Pinia · Axios · SASS

Weather App [Live](#) · [GitHub](#)

Current weather, a three-day outlook and a 24-hour forecast for any city, with saved favourites. Built at Graffino.

Vue · Vuex · Axios · SASS

Audio-video Processing [GitHub](#) · [Demo](#)

Windows app that applies video and audio operations such as gamma correction, with region-of-interest support for video.

C# · EmguCV · NAudio

INTERESTS

Drawing and running. I tinker with anything tech: making games, 2D and 3D art, sound effects and music, and I take part in game jams.
